Student Account Assignment List Guidelines

Please assign your students to a business and a table using the attached form.

On the Student Account Assignment List, the number next to the businesses name indicates the table number at which the students will be stationed. For example, there are two tables in Ameren-Peabody: "Ameren-Peabody-1" and "Ameren-Peabody-2." The business and table assignments simply serve as a "home base" for the students throughout the day.

School Name: [REDACTED]			
Business	Account #	Table	Student Name

These accounts are table # 1 in Ameren-Peabody. Later in the list, you will see Ameren-Peabody table #2.

Ameren-Peabody - 2	083	B	[REDACTED]

Most businesses have two or three tables.

Some hints:

- You do not have to assign students to every business.
- You know which students work well together and which do not.
- The ideal JA Finance Park experience will have one adult volunteer at each table (each group), so it won't matter how you assign your students.
 - This equates to one volunteer per six students
 - If you do not have the ideal number of volunteers, fill an entire business before filling another business; i.e. fill all spots at all tables in Ameren-Peabody before starting to fill Busch Entertainment.
- If you have less than 75 students, you may have a "buddy" school on your visit day. JA staff will let you know to which businesses you will assign your students.

Please print neatly or send the list electronically. We need to be able to clearly read the student names in order to complete our planning. **Please fax or e-mail this form to us at least 7 days before your visit. Fax number: 636-728-0708**
